

9. (Original) A plant comprising plant cells as claimed in claim 8.

10. (Original) Propagation material or harvested material from plants as claimed in claim 9, comprising plant cells as claimed in claim 8.

11. (Original) A method of generating transgenic plant cells as claimed in claim 8, wherein plant cells, plant tissue, plant parts or protoplasts are transformed with a nucleic acid molecule as claimed in claims 1, with a vector as claimed in claims 4, with an expression cassette as claimed in claim 3 or with a host cell as claimed in claim 6, and the transformed plant cells, plant tissues, plant parts or protoplasts are cultivated in a growth medium.

12. (Original) A method of generating transgenic plants as claimed in claim 9, wherein plant cells, plant tissue, plant parts or protoplasts are transformed with a nucleic acid molecule as claimed in claim 1, with a vector as claimed in claim 4, with an expression cassette as claimed in claim 3 or with a host cell as claimed in claim 6, the transformed plant cells, plant tissues, plant parts or protoplasts are grown in a growth medium, and intact plants are regenerated from the obtained plant cells.

13. (Cancelled)

14. (Withdrawn)

15. (Original) A method for the caryopsis-specific gene expression in plants, wherein a nucleic acid molecule as claimed in claims 1 is stably integrated into to the genome of a plant cell, and the plant is regenerated from said plant cell.

16. (Withdrawn)
